Business Report

(From April 1, 2004 to March 31, 2005)

1. Operating Conditions

(1) Operating progress and results of the Oki Group

On the whole, this year has seen a gradual recovery in the market including a gradual increase in capital expenditures despite a suspension in corporate profit improvement and a domestic slowdown in export growth. As for overseas conditions, economies are expanding in Asia including China as well as the US. The economy was generally recovering although there were some concerns such as a sharp appreciation of the yen and the end of the digital economy.

The Oki Group's business position was favorable including active investment in major telecommunication carriers' broadband IP networks and an expanded market for business-use color printers. Still, there were some concerns including cessation of financial institution demand for ATMs to accommodate new Japanese banknotes, reductions and delays in public investment due to natural disasters and a weakening of the semiconductor market from the second half of the year.

Our parent company's results are similar to the consolidated results. Oki Electric recorded sales of \(\frac{\pmathbf{4}}{439.4}\) billion, an increase of 5.2% from the previous year. As for profits and losses, operating income increased \(\frac{\pmathbf{3}}{3.8}\) billion to \(\frac{\pmathbf{8}}{8.0}\) billion from \(\frac{\pmathbf{4}}{4.2}\) billion the previous year, and recurring income increased \(\frac{\pmathbf{7}}{7.3}\) billion to \(\frac{\pmathbf{8}}{8.3}\) billion from \(\frac{\pmathbf{1}}{3.2}\) billion for this year, an increase of \(\frac{\pmathbf{7}}{7.0}\) billion.

To strengthen our compliance initiatives, Oki established a Group-wide Compliance Committee in April 2004 to oversee all compliance activities and a Compliance and Business Ethics Division to plan, formulate and promote various compliance measures. In addition, Oki appointed a Chief Compliance Officer in June.

Oki established a CSR Promotion Division in October 2004 to promote openness with stakeholders and improve our economic, environmental and social activities. Specifically, Oki has endeavored to strengthen compliance, improve customer satisfaction, increase environmental measures, promote respect for our employees, increase social welfare and ensure effective IR activities.

Oki also established a Disclosure Committee in February 2005 to oversee disclosure of critical information to stakeholders.

Our consolidated sales by segment are as follows.

- Sales

(Unit: billions of yen)

Segment	FY2003 (reference: previous year)	FY2004 (the year under review)	Increase or decrease	Compared to the previous year (%)	Major factors for the difference
Information systems	360.3	335.8	(24.5)	93	Due to reduced ATM sales and deferral of IT investment
Telecommuni- cations systems	104.6	135.3	30.7	129	Due to increased demand for IP network-related equipment
Electronic devices	132.2	150.7	18.5	114	On account of stable sales of system memories
Others	57.1	66.7	9.6	117	
Total	654.2	688.5	34.3	105	

The business outline of each segment is as follows.

Information systems

Although sales increased due to rapid market expansion for business-use color printers, demand for ATMs accommodating new Japanese banknotes virtually ceased in the first half of 2004 greatly reducing ATM sales. Similarly, government offices deferred IT investments due to natural disasters. As a result, consolidated sales for external customers declined by 6.8% to ¥335.8 billion from the previous year.

Operating income was ¥14.3 billion, a decrease of ¥9.7 billion from ¥24.0 billion the previous year, on account of increased R&D costs for new printer products and next-generation financial systems and reduced prices for government, public office and financial institution systems due to increasingly severe competition.

We expect financial institutions to shift their focus to investments in IT systems, integrated networks and strengthened ATM security. The Oki Group aims to maintain sustainable growth by creating new products for these new requirements.

Telecommunications systems

Demand for regional IP network equipment and equipment to link existing public networks to IP networks has greatly increased due to active expansion of broadband IP networks by telecommunications carriers. In addition, companies have been increasing their capital investment in info-telecom converged equipment. As a result, consolidated sales increased by 29.3% to ¥135.3 billion from the previous year.

Operating income increased by ¥4.5 billion to ¥7.9 billion, from ¥3.4 billion the previous year, due to the large sales increase.

Telecommunications carriers have announced long-term active investment in FTTH and optical IP telephony. In addition, improved broadband IP networks will create multiple applications and services. The Oki Group aims to capture these opportunities in order to expand its business.

Electronic devices

Growth in the semiconductor market, which had been stable in the first half of the year, slowed down in the second half. Demand for sound generator LSIs and PHS base band LSIs has slowed, influenced by inventory adjustment for mobile terminals in China. Additionally, demand for driver LSIs for use with liquid crystal display panels increased due to coming on line of the panel manufacturers' new plants, but revenue was affected by reduced prices in the second half. On the other hand, sales for system memories for electronic dictionaries and amusement market increased. As a result, consolidated sales increased by 14.1% to ¥150.7 billion from the previous year.

Operating income improved by ¥9.7 billion to ¥12.0 billion, from ¥2.3 billion the previous year, on account of the sales increase, cost reductions based on business reorganization and recovery in the optical component business.

Although we expect the semiconductor market to recover from the middle of FY2005 onward, the Oki Group will continue to provide unique products for the personal and mobile markets, an area of strength for the Group, and will continue cost reductions to ensure more stable profits.

(2) Capital expenditure of the Oki Group

The capital expenditure for this year accounted for ¥37.8 billion.

The investment amount by segment was as follows.

(Unit: billions of yen)

Segment	Amount of capital expenditure	Major investments
Information systems	9.3	Investment for development and manufacturing of ATM products for financial and logistics markets, cash management systems and business-use printers
Telecommunications systems	1.3	Investment for development and manufacturing of IPnetwork telecommunication system products
Electronic devices	23.1	Investment for development and manufacturing of logic LSIs, system LSIs and system memories
Others	4.1	
Total	37.8	

Note: The above amount includes ¥3 billion of leased assets.

(3) Financing of the Oki Group

The Oki Group financed its operations for the year through its own funds, borrowings and corporate bonds. The company on November 26, 2004 issued ¥20 billion of Euro Yen convertible bonds to be redeemed in 2008.

(4) Future challenges of the Oki Group

The Oki Group has promoted various management innovation measures based on its 2002 mid-term management plan "Phoenix 21 Sky-High." As a result, our profit structure has improved, and we have achieved a certain level of results in our initiative to strengthen our management base. Having completed building a base by pursuing profits and speed, the Oki Group in 2004 entered the second phase of the plan, which calls for aiming at further growth as a stable profit-earning company.

From 2005, the Oki Group has changed its organizational structure from a three businesses structure of information systems, telecommunications systems and electronic devices to the following three business areas. The Oki Group will aim at profit expansion and growth as a stable profit-earning company by focusing its management resources on its core businesses to create "world leading technologies" and "strong products."

(i) Info-Telecom System Business

The Oki Group believes that new applications in the field of information and telecommunications convergence will expand and materialize as broadband IP networks expand and information technology (IT) progresses. Based on this belief, the Oki Group will engage in a broad spectrum of businesses ranging from infrastructure to applications for broadband networks. In addition, the Oki Group will focus on creating and providing information and telecommunications convergence solutions based on our information and telecommunications convergence solution concept "AP@PLAT". We have systemized various solutions by combining products and industry-specific applications based on core technologies including VoIP, CTI, securities and networks, our areas of strength. In particular, the Oki Group intends to provide comprehensive one-stop services from consultation to maintenance for four markets - financial, telecom carrier, public sector (government, public offices and local governments) and enterprise markets - where the Group has traditionally had large numbers of customers.

- 1. <u>Financial Institutions</u>. In addition to strengthened security for ATM business, for which the Group has the largest domestic share and full operations in China, the Group will strengthen its back-office operation concentration systems business, backyard solutions using image processing technologies, and provision of financial IT solutions using the Internet and VoIP technologies.
- 2. <u>Telecom Carriers</u>. Responding to active investment in IP networks and optical networks by carriers, the Group will improve its provision of IP network systems, optical access systems such as GE-PON and systems to connect existing fixed telephones to IP networks. Additionally, the Group will operate application servers to realize triple play services integrating voice, video and data, for which we expect future growth.
- 3. <u>Public Sector</u>. The Group will focus on a major project based on the Japanese government's e-Japan II Initiative. In particular, the Group will focus on (i) e-government solutions based on secure networks, (ii) ITS businesses such as ETC, and (iii) disaster prevention networks for which we anticipate the application of leading technologies such as ad hoc networks.
- 4. <u>Enterprise Business</u>. The Oki Group aims to create new opportunities by providing IP-based solutions, drawing on Oki's leading VoIP and CTI technologies, to

realize seamless connections to company mission critical systems. In addition, for the travel and transportation industry, where Oki has traditionally been strong, we intend to provide high value-added solutions for existing ticketing systems based on our superiority in mechatronics.

(ii) Semiconductor Business

In addition to shifting from memory to logic LSI, the Oki Group has moved to realize a stable profit structure protected from demand changes due to the silicon cycle by promoting structural innovations including establishment of a "fab-free" business model separating design, development and production into two companies and effectively outsourcing as required. In addition, the Group has promoted strategic alliances with high-quality overseas partners for both development and production.

Based on this business model, the Oki Group intends in the future to continue to focus its management resources on the personal mobile field where the Group has multiple proprietary technologies including silicon on insulator (SOI), silicon on sapphire (SOS), high voltage, high density packaging and ultra-low power consumption technology. In particular, the Group will target three markets - telecommunications, information appliances and in-vehicle systems - developing the Group's unique product lines in system LSI, logic LSI and system memory. The Oki Group will further improve its development of value-added products using its strengths to increase profits.

(iii) Printer Business

In the printer business, the Oki Group intends to increase its focus on color non-impact printers with an LED technology that enables high-speed, high – resolution color printing and compact size. The Group intends to develop new products to strengthen this superiority. In addition, backed by its quality for value, the Group intends to improve its product lineup to expand its global market share in China, South East Asia and the Middle East.

In the serial impact dot matrix printer business, the Group will make efforts to expand profits by further cost reductions and active business development in the Chinese, Eastern Europe and Latin American markets.

(5) Operating results of the Oki Group and Oki Electric

Operating results of the Oki Group Sales, income and assets for the fiscal year under review and the past three years are as follows.

	78th ye	ear (2001)	79th y	rear (2002)	80th y	year (2003)		st year it year, 2004)
Sales	604.6	billion yen	585.5	billion yen	654.2	billion yen	688.5	billion yen

Net assets per share	178.15	yen	165.63	yen	180.66	yen	204.11	yen

Notes:

- 1. Parentheses indicate losses.
- Net income per share is computed based on the average number of shares during the year (weighted average). Net assets per share are computed based on the number of common shares outstanding during the year. These figures exclude treasury stocks.
- 3. From the 79th year, net income per share is calculated subject to "Accounting Standards for Net Income per Share" (Corporate Accounting Standard No.2) and "Application Guidelines for Accounting Standards for Net Income per Share" (Corporate Accounting Standard Application Guideline No.4)

Positioning the 78th year (2001) as the preparatory year for transformation into a high-growth company by formulating "Phoenix 21 Sky-High," the Oki Group has made efforts in business selection and resource concentration. Changes in the market environment, however, far surpassed those forecast, leading to a general decline in sales and large losses.

In the 79th year (2002), the Group formulated and implemented its Third Structural Reform in October 2002 under a more severe business environment. As a result, losses improved over the previous year despite declining sales.

In the 80th year (2003), while there were signs of improvement in the business environment, the Group made efforts to complete implementation of the Third Structural Reform. As a result, we recorded a profit with sales increased and losses decreased compared with the previous year.

(ii) Trends of operating results of Oki Electric Sales, income and assets for the fiscal year under review and the past three years are as follows.

Principles for Preparing Consolidated Financial Statements

1. Scope of consolidation

(1) Number of consolidated subsidiaries: 80 companies

Names of major consolidated subsidiaries:

Oki Data Corporation, Oki Customer Adtech Co., Ltd., Oki Wintech Co., Ltd., Miyagi Oki Electric Co., Ltd., Miyazaki Oki Electric Co., Ltd., Oki America, Inc., Oki Europe Ltd., Oki (Thailand) Co., Ltd.

(2) Names of major non-consolidated subsidiaries:

Adachi Protechno Co., Ltd. and 36 other companies

Reasons for excluding from consolidation:

Total assets, retained earnings, net sales and net income or loss are individually and wholly immaterial and have no significant influence.

(3) Changes in scope of consolidation:

Oki Systems ve Yazici Cozumleri LS., and Oki Electric Technology (Kunshan) Co., Ltd. were newly established during the fiscal year under review and therefore included in consolidation.

Oki Semiconductor (Asia) Pte. Ltd. was excluded from consolidation upon its liquidation.

2. Application of equity method

- (1) Number of subsidiaries to which the equity method is applied: 2 companies Name of major subsidiary: Oki Electric Cable Co., Ltd.
- (2) Names of major non-consolidated subsidiaries and affiliated companies to which the equity method is not applied:

Non-consolidated subsidiaries:

Adachi Protechno Co., Ltd and 36 other companies

Affiliated companies: Alp Inc. and 23 other companies

Reason for not applying the equity method:

They individually have little influence and have no significance as a whole on net income or loss and retained earnings.

3. Accounting standards

- (1) Valuation standards and methods for assets
 - (i) Negotiable securities

Oki and its domestic consolidated subsidiaries evaluate securities in accordance with the purpose of holding as follows. Overseas consolidated subsidiaries apply the lower of cost or market value.

Held-to-maturity securities: amortized or accumulated to face value

Other negotiable securities:

Marketable securities:

Stated at fair value based on the market price at the end of the fiscal year

(A difference between the book value and the market value is included in capital, and sale cost is calculated by the moving average method).

Non-marketable securities:

Stated at cost based on the moving average method

(ii) Inventories

Oki and its domestic consolidated subsidiaries apply the cost method, and overseas consolidated subsidiaries mainly apply the lower of cost or market value.

(iii) Derivatives

Stated at market value

(2) Depreciation and amortization

(i) Property, plant and equipment

Oki and its domestic consolidated subsidiaries mainly apply the declining-balance method; overseas consolidated subsidiaries mainly apply the straight-line method.

(ii) Intangible assets

Oki and its domestic consolidated subsidiaries apply the straight-line method.

For software for sale in the market, the depreciation is based on the estimated number of years for sales (3 years). For software for internal use, the straight-line method, based on the estimated durable years (5 years), is used.

Overseas consolidated subsidiaries mainly apply the straight-line method.

(3) Basis for provision of reserves

(i) Allowance for doubtful receivables

To prepare for any losses of accounts receivable and loans, Oki and its domestic consolidated subsidiaries calculate the amount of potential loss by using the historical loss ratio for non-classified loans/receivables and individual assessment for classified loans/receivables. Overseas consolidated subsidiaries calculate the amount of potential loss by individually assessing the possibility of collection for specific loans/receivables.

(ii) Retirement benefits

To prepare for payment of retirement benefits to employees, Oki and its consolidated subsidiaries register the amount recognized to accrue at the end of the fiscal year based on estimated values of retirement benefit obligations and pension assets.

Differences due to changes in accounting standards are amortized over 15 years except for consolidated subsidiaries that amortize the difference in the first year of application.

Prior service costs are amortized by the straight-line method over a set number of years (14 years) within the average remaining years of service of employees.

Actuarial gains and losses are amortized by the straight line method over a set number of years (13 to 14 years) within the average remaining years of service of

employees at the time of their accrual in each fiscal year, and the amortization of such gains and losses is deemed to be effective from the year after the one in which they arise.

(Additional information)

Oki and certain of its consolidated subsidiaries obtained approval for returning the past substitutional portion by the Welfare Pension Fund on December 31, 2004 and started a point-type retirement benefit plan and cash balance plan-type pension plan on January 1, 2005, shifting from the welfare pension fund system to a defined-benefit pension plan.

As a result of this shift, the projected benefit obligation has declined, and a profit of \(\pm\)15,361 million of prior service costs was accrued. This profit is amortized by the straight-line method over 14 years within the average remaining years of service of employees. As a result of this, operating income/ordinary income and net income before taxes for this fiscal year increased by \(\pm\)248 million and \(\pm\)51 million, respectively.

In addition, certain domestic consolidated subsidiaries have discontinued their approved retirement annuity system and shifted to a defined contribution pension plan. As a result, net income before tax adjustment for this fiscal year declined by \mathbb{\xi}37 million.

(iii) Reserve for Directors' retirement

Some domestic consolidated subsidiaries register the necessary amount at the end of the year in accordance with internal rules to prepare for the payment of Directors' retirement allowance.

Oki abolished the Directors' retirement allowance system by resolution of the general meeting of shareholders in June 2004. ¥348 million, equivalent to the Directors' retirement allowance for the period up to this general meeting of shareholders, is included in "other non-current liabilities."

(4) Accounting processing of consumption tax

The tax-exclusion method is used for accounting of consumption tax and local consumption tax.

(5) Other

Application of consolidated tax payment:

The consolidated tax payment is applied.

We have audited the consolidated financial statements, that is the consolidated balance sheets and the consolidated statements of income, of Oki Electric Industry Co., Ltd. for the 81st term from April 1, 2004 to March 31, 2005 in accordance with Article 19 Paragraph 2 Item 3 of the Law for Special Exceptions to the Commercial Code Concerning Corporate Audits. Oki Electric Industry Co., Ltd.'s management is responsible for preparing these consolidated financial statements, and our responsibility is to express our independent opinion regarding these consolidated financial statements.

We conducted our audit in accordance with auditing standards generally accepted in Japan. These auditing standards require that we obtain reasonable assurance as to whether these consolidated financial statements are free of material misstatement. Audits are conducted based on a test basis, and include reviews of accounting policies and methods that the management adopts, and evaluation of management estimates and the presentation of the consolidated financial statements as a whole. We believe we have obtained reasonable bases for the expression of our opinion as a result of our audit. In addition, our audit includes auditing procedures that we considered necessary in order to conduct our audit for Oki Electric Industry Co., Ltd.'s subsidiaries.

As a result of the audit, we concluded that the consolidated financial statements fairly present Oki Electric Industry Co., Ltd.'s and its subsidiaries' assets and income or loss in accordance with law and the Articles of Incorporation.

No conflict of interest as defined by the Accounting Law exists between Oki Electric Industry Co., Ltd., our firm (Ernst & Young ShinNihon) and respective engagement partners.

Significant Accounting Policies

1. Valuation standards and methods for negotiable securities, etc.

Held-to-maturity securities: amortized or accumulated to face value

Shares of subsidiaries and affiliated companies:

Stated at cost based on the moving average method

Other negotiable securities:

Marketable securities:

Stated at fair value based on the market price at the end of the fiscal year (The difference between book value and market value is included in capital, and the sale cost is calculated by using the moving average method).

Non-marketable securities: Stated at cost based on the moving average method

Derivatives: Stated at market value

2. Valuation standards and methods for inventories

Finished goods and semi-finished goods: Stated at cost based on the moving average method

Work in process: Stated at cost based on the specific identification method Materials and supplies: Stated at cost based on the last purchase price method

3. Depreciation and amortization

Property, plant and equipment: declining-balance method

The straight-line method is applied to buildings, excluding annexed structures, acquired on or after April 1, 1998.

Intangible assets

Software for sale in the market:

amortization method based on the estimated number of years for sales (3 years)

Software for internal use:

straight-line method based on the estimated durable years (5 years)

Others: straight-line method

4. Basis for provision of reserves

Allowance for doubtful receivables

To prepare for any losses on accounts receivable and loans, Oki calculates the amount of potential loss by using the historical loss ratio in case of non-classified loans/receivables and by individual assessment in case of classified loans/receivables.

Retirement benefits

To prepare for payment of retirement benefits to employees, Oki records the amount recognized to accrue at the end of the fiscal year based on the estimated values of retirement benefit obligations and pension assets.

Differences for changes in accounting standards are amortized over 15 years.

Prior service cost is amortized by the straight-line method over a certain number of years (14 years) within the average remaining years of service of employees.

Actuarial gains and losses are amortized by the straight-line method over a set

number of years (13 to 14 years) within the average remaining years of service of employees at the time of their accrual in each fiscal year, and the amortization of such gains and losses is deemed to be effective from the year after the year in which they arise.

(Additional information)

Oki obtained approval for returning the past substitutional portion by the Welfare Pension Fund on December 31, 2004 and started the point-type retirement benefit plan and cash balance plan-type pension plan on January 1, 2005, shifting from the welfare pension fund system to a defined-benefit pension plan.

As a result of this shift, projected benefit obligation has declined, and profit of $\$10,\!428$ million of prior service cost accrued. This profit is amortized by the straight-line method over 14 years within the average remaining years of service of employees. As a result of this, operating income/ordinary income and net income before taxes for this fiscal year increased by \$159 million.

Reserve for Directors' retirement

Oki abolished the Directors' retirement allowance system by resolution of the general meeting of shareholders in June 2004. ¥348 million, equivalent to the Directors' retirement allowance for the period up to this general meeting of shareholders, is included in "other non-current liabilities."

5. Accounting processing of consumption tax

The tax-exclusion approach is applied for accounting of consumption tax and local consumption tax.

6. Others

Application of consolidated tax payments:

Consolidated tax payments are applied.

We have audited the statutory report, that is the balance sheets, the statements of income, the business report (limited to accounting matters), and the proposed appropriation of unappropriated retained earnings, and its supporting schedules (limited to accounting matters) of Oki Electric Industry Co., Ltd.'s 81st term from April 1, 2004 to March 31, 2005 in accordance with Article 2 Item 1 of the Law for Special Exceptions to the Commercial Code Concerning Corporate Audits. With respect to the aforementioned business report and supporting schedules, our audit was limited to those matters derived from the accounting books and records of Oki Electric Industry Co., Ltd. and its subsidiaries. The statutory report and supporting schedules are the responsibility of Oki Electric Industry Co., Ltd.'s management. Our responsibility is to express an opinion on the statutory report and supporting schedules based on our audit as independent auditors.

We conducted our audit in accordance with auditing standards generally accepted in Japan. These auditing standards require that we obtain reasonable assurance as to whether these financial statements are free of material misstatement. Audits are conducted based on a test basis, and include reviews of accounting policies and methods that management adopts, and evaluation of management estimates and the presentation of financial statements and supporting schedules as a whole. We believe that we have obtained reasonable bases for the expression of our opinion as a result of our audit. In addition, our audit includes auditing procedures that we considered necessary in order to conduct our audit for Oki Electric Industry Co., Ltd.'s subsidiaries.

As a result of the audit, our opinion is as follows:

- (1) The balance sheets and the statements of income fairly present the financial position and the results of operations of the Company in conformity with related laws and regulations and the Articles of Incorporation of the Company.
- (2) The business report (limited to accounting matters) fairly presents the status of the Company in conformity with related laws and regulations and the Articles of Incorporation of the Company.
- (3) The proposal for appropriation of earnings has been prepared in conformity with related laws and regulations and the Articles of Incorporation of the Company.
- (4) With respect to the supporting schedules (limited to accounting matters) there are no items to be noted that are not in conformity with the provisions of the Commercial Code.

No conflict of interest as defined by the Accounting Law exists between Oki Electric Industry Co., Ltd., our firm (Ernst & Young ShinNihon) and respective engagement partners.

Transcript of Corporate Auditors' Report

Corporate Auditors' Report

Each Corporate Auditor reported to the Board of Corporate Auditors on the business execution of the Directors for the 81st fiscal year (from April 1, 2004 to March 31, 2005), and upon discussion, the Board prepared this audit report as follows.

1. Outline of Corporate Auditors' audit methods

In accordance with auditing policies and auditing plans prescribed by the Board of Corporate Auditors, in addition to participating in the Board of Directors and other important meetings, each Corporate Auditor learned about the state of business operations from the Directors, the internal auditing division and the Account Auditors, and requested business reports from subsidiaries if necessary. In addition, the Board of Corporate Auditors received reports and explanations from the Account Auditors for review of financial statements and their supporting schedules.

In addition to the audit method mentioned above, the Board of Corporate Auditors requested reports from the Directors, if necessary, for detailed surveys with regard to the potential for competitive transactions by the Directors, conflicts of interest between the Directors and the Company, uncompensated allocation of profits from the Company, uncommon transactions with subsidiaries or shareholders, and acquisition and disposal of treasury stocks.

2. Audit results

- (1) We find the audit methods and results by Ernst & Young ShinNihon the Account Auditors, to be appropriate.
- (2) We find that the business report correctly indicates corporate status in accordance with law and the Articles of Incorporation.
- (3) Considering the state of corporate assets and other circumstances, we find no items that require special reporting with regard to the agenda item for appropriation of retained earnings.
- (4) We find no items that require special reporting with regard to the schedules of financial statements, which correctly indicate the items to be stated.
- (5) We find no illegal activities of the Directors with regard to business operations, and no significant breaches of law or the Articles of Incorporation.

Further, we find no breach of obligations by the Directors with regard to competitive transactions by the Directors, conflicts of interest between the Directors and the Company, uncompensated allocation of profits by the Company, uncommon transactions with subsidiaries or shareholders, and acquisition and disposal of treasury stocks.

Reference Document for the Exercise of Voting Rights

- 1. Number of voting rights held by all shareholders: 603, 320
- 2. Agenda and reference matters
 - **Agenda 1:** Approval of the proposed appropriation of unappropriated retained earnings for the 81st fiscal year

Details of the proposed appropriation of unappropriated retained earnings for the 81st fiscal year are as described in the attachment (page 30).

Our basic policy is to determine the amount of dividends by considering each year's profitability and retained earnings for future business development.

Based on this policy, we would like to set our dividend for this year as 3 yen per share.

Agenda 2: Partial amendment to the Articles of Incorporation

1. Reasons for amendment

- 1) Following the execution of the "Law for Partial Revision of the Commercial Code for the Introduction of the Electronic Announcement System" (No. 87, 2004) on February 1, 2005, we will change our announcement method from placement in the Nihon Keizai Shimbun to electronic announcements and establish procedures in case an electronic announcement is not possible due to unavoidable events.
- 2) We will reduce the number of the Directors upon establishment of an executive system management structure.

2. Details of amendments

Details of amendments are as follows.

(Underlined portions are the amendments.)

Current Articles of Incorporation	Amendment Draft	
Article 4. Announcement Method Announcements of the Company shall be conducted by advertising in the Nihon Keizai Shimbun published in Tokyo.	Article 4. Announcement Method Announcements of the Company shall be conducted by electronic announcement. Provided, however, that they shall be done by advertising in the Nihon Keizai Shimbun published in Tokyo in case electronic announcement is not possible due to unavoidable events.	
Article 17. Number of Directors The number of Directors of the Company shall be up to twenty (20).	Article 17. Number of Directors The number of Directors of the Company shall be up to fifteen (15).	

Agenda 3: Election of three Directors

The tenure of Directors Katsuhiko Sano, Nobuhide Hara and Minoru Mori will expire at the end of this general meeting of shareholders.

We accordingly request that you elect three Directors from among the following candidates.

Candidates for Directors (three):

Mr. Morio fulfills the requirement for an external director set forth in Item 7-2, Paragraph 2, Article 188 of the Commercial Code.

Agenda 4: Revision of wages for Directors and Auditors

Wages for Oki Directors were set at a maximum of 40 million yen per month at the 66th general meeting of shareholders held on June 28, 1990; wages for Corporate Auditors were set at a maximum of 7 million yen per month at the 73rd general meeting of shareholders held on June 27, 1997. To implement flexible operations, we would like to revise wages for Directors to up to 480 million yen per year, and wages for Corporate Auditors to up to 84 million yen per year.

Such wages for Directors will not include any salaries Directors receive as employees. Upon approval of Agenda 3 per our draft, the number of Directors will be ten. The number of the Corporate Auditors is four.

Agenda 5: Issuance of stock acquisition rights as stock options

Oki is to issue stock acquisition rights as stock options to Directors engaged in the business operations of the Company, Executive Officers, senior staff members participating in management and Directors of certain subsidiaries for the following reasons and per the following methods in accordance with the provisions of Articles 280-20 and 280-21 of the Commercial Code. Accordingly, we request that you approve this matter.

Reason for issuing stock acquisition rights under privileged conditions
 The stock acquisition rights are to be issued as stock options, free of charge, to
 Directors engaged in the business operations of the Company, Executive Officers,
 senior staff members participating in management and Directors of certain subsidiaries,
 to further enhance their motivation and willingness to improve corporate value through
 their management efforts, which we believe will consequently bring profits to each

shareholder.

2. Persons allotted stock acquisition rights

The stock acquisition rights are to be allotted to Directors engaged in the business operations of the Company, Executive Officers, senior staff members participating in the management and Directors of certain subsidiaries.

3. Outline of the issuance of stock acquisition rights

(1) Type and number of shares to be issued for the purpose of stock acquisition rights The upper limit of new common shares to be issued is 442,000 shares.

In the event Oki splits or consolidates its common shares, the number of shares to be issued for the purpose of the stock acquisition rights not yet exercised shall be adjusted in accordance with the formula below.

Number of shares after adjustment = (Number of shares before adjustment) x (Ratio of split or consolidation)

Odd lots less than one share in this adjustment shall be discarded.

(2) Number of stock acquisition rights to be issued

Up to 442

(Beneficiaries can acquire 1,000 shares for each right. However, if the number of shares to be issued is adjusted as described above, the number of shares to be acquired will also be adjusted in the same manner.

(3) Issue price of stock acquisition rights

The rights are granted free of charge.

(4) Payment for shares on the exercise of the rights

The amount paid per right is determined by multiplying the amount paid per share determined as follows ("exercise price") by the number of shares to be issued per right as determined in (2) above. The exercise price will be the highest of the following multiplied by 1.05: 1) the average closing price for Oki shares on the Tokyo Stock Exchange during the month prior to the month that includes the issue date of stock acquisition rights, 2) the closing price for Oki shares on the day prior to the issue date of stock acquisition rights, or 3) the closing price for Oki shares on the day prior to the day of this general meeting of shareholders. Fractions less than one yen shall be rounded up to the nearest yen.

Further, in the case that Oki issues new shares at a price less than the market price (excluding the issuance of new shares by the exercise of stock acquisition rights), the exercise price shall be adjusted in accordance with the formula shown below, and fractions less than one yen shall be rounded up to the nearest yen.

Exercise price after adjustment =

```
Exercise price before adjustment × \frac{\text{Number of outstanding shares} + \frac{\text{(Number of newly issued shares} \times \text{Amount paid per share)}}{\text{Market price per share before new share issue}}
\frac{\text{Number of outstanding shares} + \text{Increase in number of shares following new share issue}}{\text{Number of outstanding shares} + \text{Increase in number of shares following new share issue}}
```

In case Oki splits or consolidates its stock, the exercise price shall be adjusted in accordance with the ratio of split or consolidation, and fractions less than one yen as a result of the adjustment shall be rounded up to the nearest yen.

- (5) Period of exercise of stock acquisition rights From July 1, 2007 to June 28, 2015
- (6) Conditions for exercise of stock acquisition rights
 - a. The following restrictions shall be established for exercise of stock acquisition rights:
 - Period from July 1, 2007 to June 30, 2008:
 A maximum of 34% of the allotted number may be exercised.
 - 2) Period from July 1, 2008 to June 30, 2009:
 - A maximum of the number calculated by deducting the number exercised in 1) above from 67% of the allotted number may be exercised.
 - 3) Period from July 1, 2009 to June 28, 2015:
 - A maximum of the number calculated by deducting the number exercised in
 - 1) and 2) above from the allotted number may be exercised.

Fractions shall be rounded off for calculation purposes.

b. The heir of the holder of the stock acquisition rights upon the holder's death shall be allowed to exercise the rights as follows:

In case of inheritance before June 30, 2009, the rights may be exercised by June 30, 2010; or

In case of inheritance on or after July 1, 2009, the rights may be exercised for one year from the date of inheritance; provided, however, that the rights may not be exercised after June 28, 2015.

c. Other conditions regarding the exercise of rights shall be subject to the stock acquisition right allocation agreement concluded between Oki and the holders of the rights.

(7) Cancellation of stock acquisition rights

Stock acquisition rights may be cancelled free of charge in case the rights holder no longer falls under any of the conditions for exercise provided for in the previous paragraph.

(8) Restrictions on transfer of stock acquisition rights

The transfer of stock acquisition rights is subject to the approval of the Board of Directors.
