

The OKI group achieves a better global environment by providing products that contribute to the realization of the "e-Society" for the next generation, and inherits this within the group.

1. Aim to maximize activity effects by executing company wide network-type environmental management.
 - (1) Take actions to provide environment-friendly products and services in all business processes through product planning, manufacturing and maintenance operation.
 - (2) In the business activities, strive to save energy / resources and take actions to reduce wastes.
2. Comply with applicable legal requirements / regulations / customer requirements / other requirements and prevent pollution.
3. Adequately implement PDmCA (Plan-Do-multiple Check-Act) in the environmental management system, and take actions to progress environmental performances and to continue improvements of operation system.
4. Disclose environmental information, and make wide contribution to the society by supporting environmental activities.

Company-wide Network-type Environmental Management

The efforts of the OKI group to create new eco-friendly products and realize environmentally compliant business through the selection and concentration of environmental management resources and the convergence of environment-related technologies by regarding the entire company as a single framework.
