

Information Systems

System Solutions Company

Main Products: Airport check-in systems, reservation and ticketing systems for travel agencies, electronic government solutions, intelligent transport systems (ITSs), telemetry and telecontrol systems, underwater acoustic systems, multipoint conference systems

Financial Solutions Company

Main Products: Banking branch systems, integrated image processing systems, call center systems, automated teller machines (ATMs), remote branch terminals, cash handling systems, iris recognition systems, e-banking solutions

NetBusiness Solutions Company

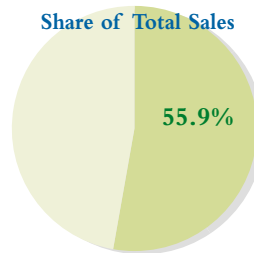

Main Products: Internet payment, web site construction and solutions, Internet transaction consulting, web site transaction middleware, electronic statement presentment systems

Enterprise System Solutions Company

Main Products: Enterprise resource planning (ERP), supply chain management (SCM), infrastructure management (IM), product life-cycle management (PLM), customer relationship management (CRM)

Oki Data Company

Main Products: Light-emitting diode (LED) color/monochrome printers, serial impact dot matrix printers, LED facsimiles

Telecommunications Systems

Network Systems Company

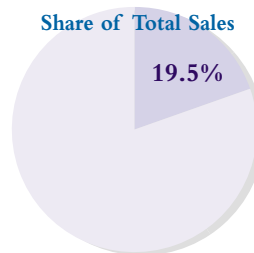

Main Products: Asynchronous transfer mode switching systems, passive optical network (PON) systems, optical fiber network equipment, Voice over Internet Protocol (VoIP) systems, private branch exchanges (PBXs), key telephones, visual communication systems, intra-office asymmetric digital subscriber line (ADSL) systems, media convertors

Multimedia Messaging Company

Main Products: Computer telephony integration (CTI) systems

Broadband Media Company

Main Products: Video-on-demand (VOD) servers, personal computer (PC) conference systems, monitoring systems

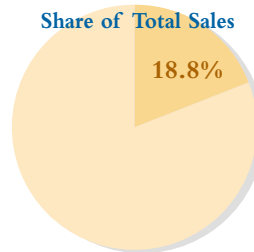

Electronic Devices

Silicon Solutions Company

Main Products: Large-scale integration (LSI) used in mobile communication and other communication devices, microcontrollers, Bluetooth, production-programmed read-only memory (P2ROM), application-specific memory (ASM) and 4M, 16M and 64M dynamic random-access memory (DRAM)

Optical Components Company

Main Products: Optical transceiver modules, gallium arsenide (GaAs) devices (10 gigabits per second (Gb/s), 40 Gb/s), electroabsorption (EA) modulators, optical communication/transmission modules, high-powered laser modules for measurement, laser modules for monitoring light sources

Other

Manufacturing Service Company

Main Services: System equipment manufacturing, network equipment manufacturing
Other Services: Consignment production of electronic equipment, experimental manufacturing services, system equipment manufacturing, network equipment manufacturing, consignment production for mechatronics and electronic equipment, staging services

Oki Customer Adtech

Main Products and Services: System network equipment, printer sales, supply office tool sales, information technology (IT) management services, maintenance support services
