

OKI Group Business Strategy Meeting Initiatives to Create Future Businesses

Kei Kato

Executive Officer

Head of Global Marketing Center

June 6, 2024

01

Creating Future Business and Restarting Global Business

02

Unique Strengths and Potential of Crystal Film Bonding (CFB)

03

CFB Business Expansion Strategy

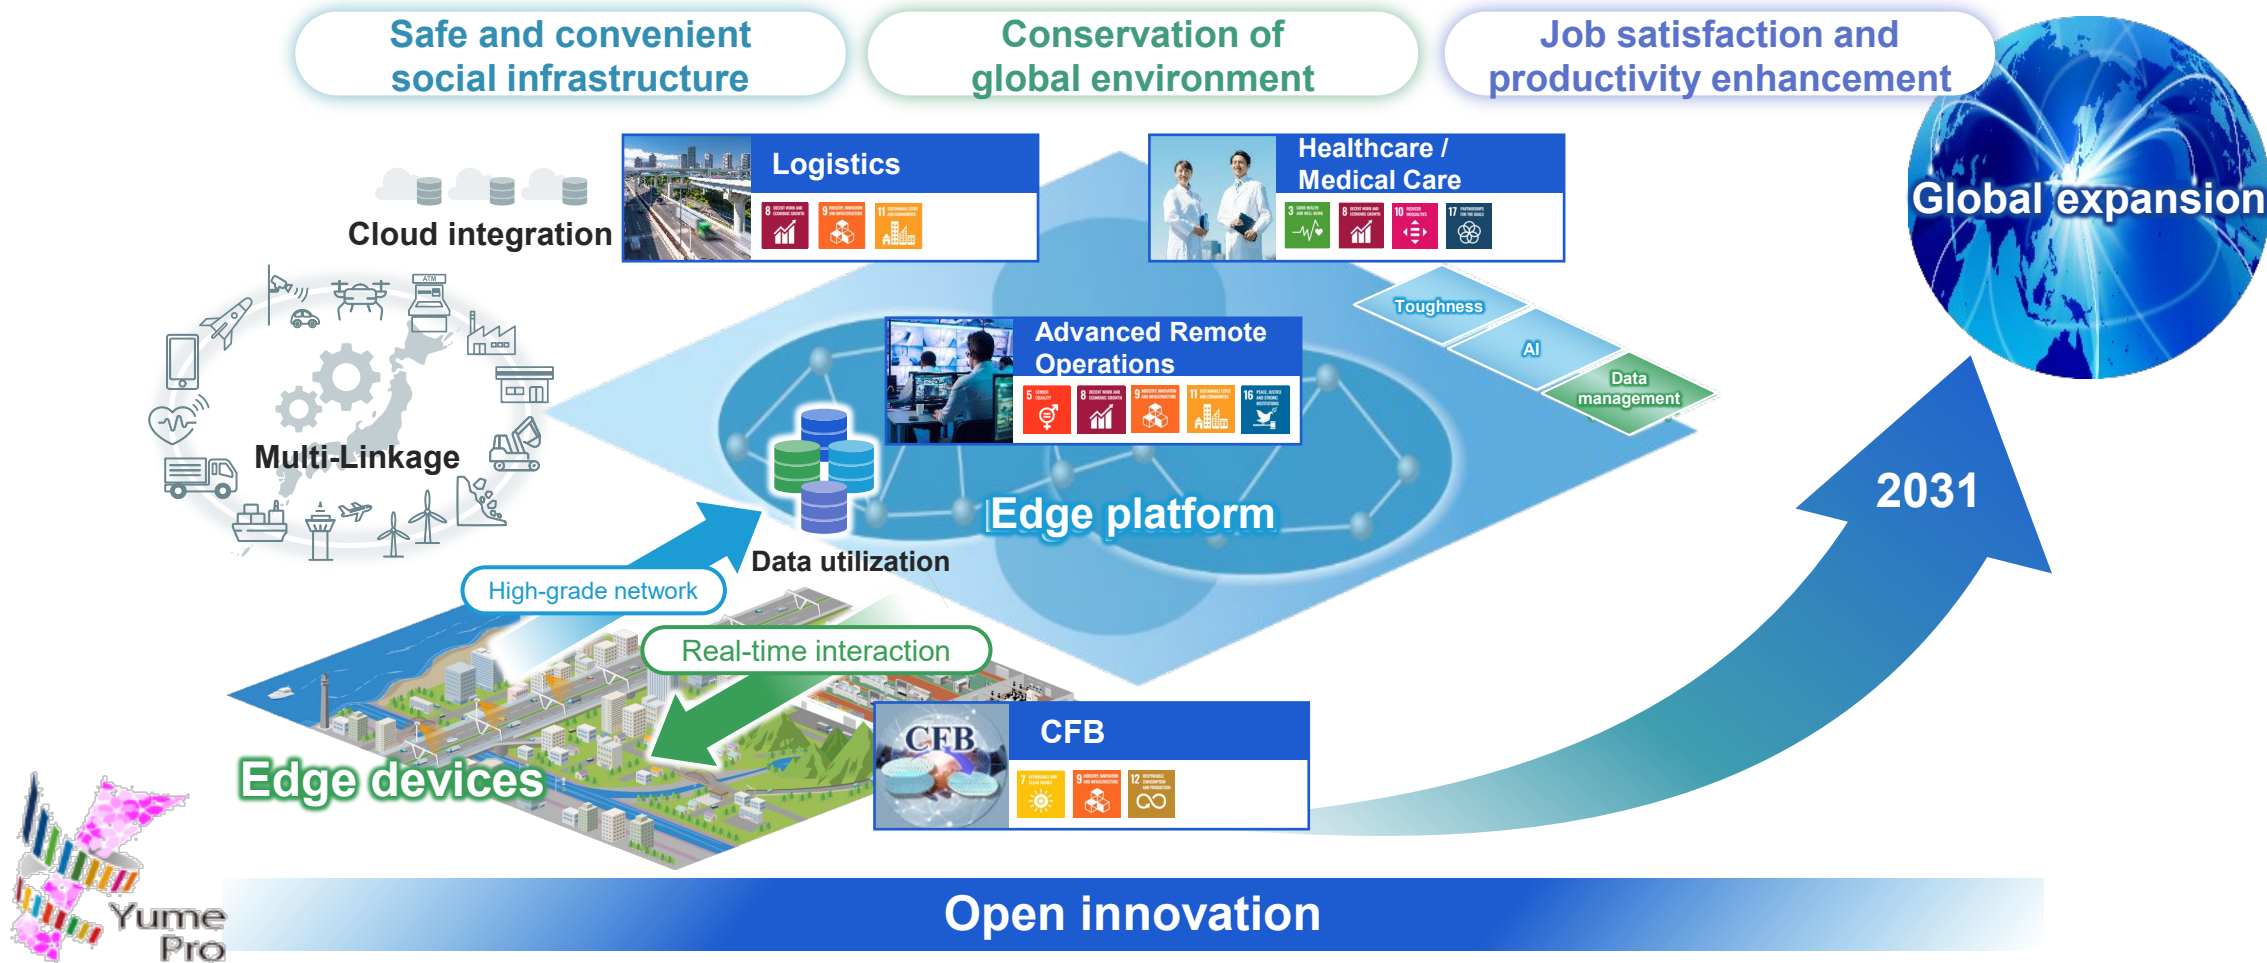

04

Fast-Tracking Our Entry into Power Device Market

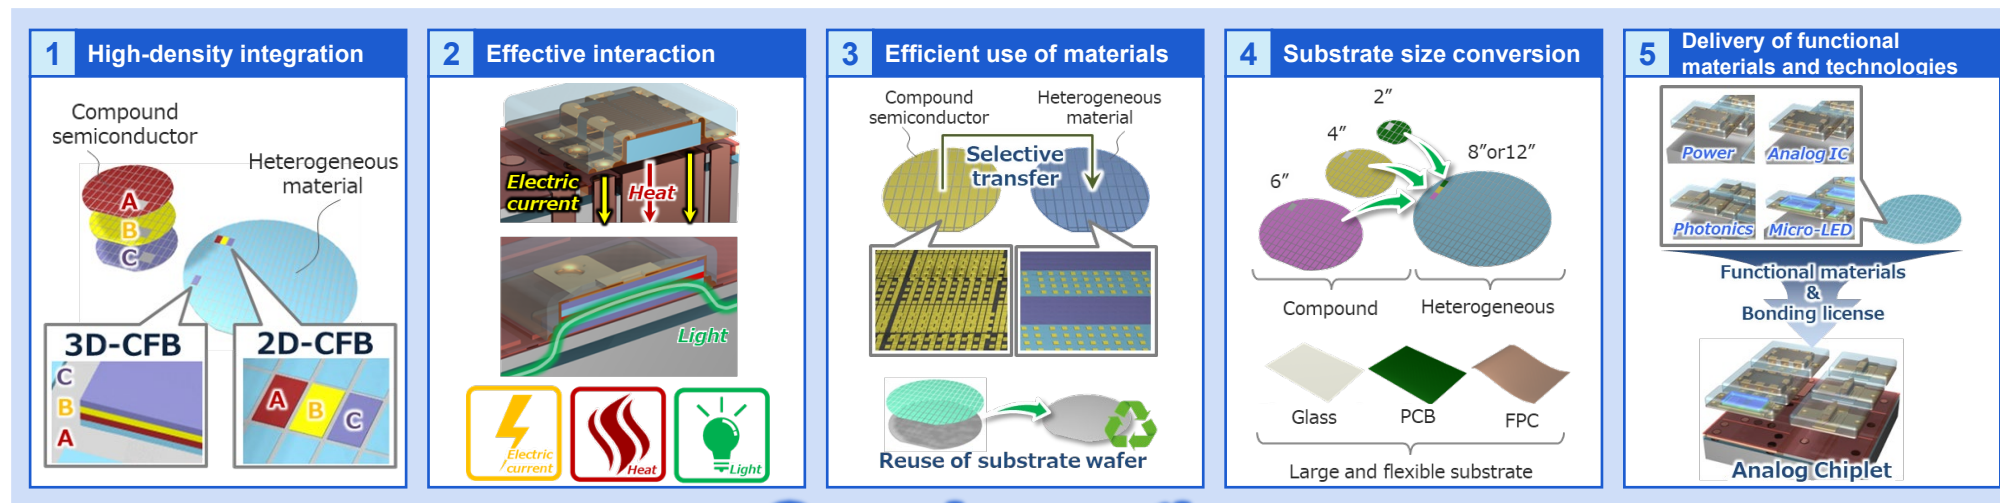

05

Establishing an R&D Site for Technology Exploration in Silicon Valley

Global expansion in focus domains through an edge platform that leverages “market growth potential × OKI’s strengths”
 Acceleration of Open Innovation to materialize global expansion of CFB and edge platform

Leveraging the unique strengths and potential of innovative “CFB” technologies to target value-added creation and enhancement with partner companies

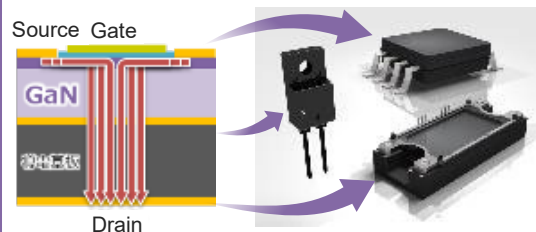

Open Innovation

Photonics

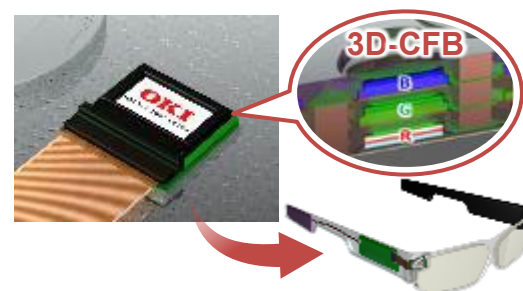

Embracing the core technology of silicon photonics!

Power

Achieving true social implementation of vertical GaN power devices!

Micro-LED

Developing the world's best high-density display!

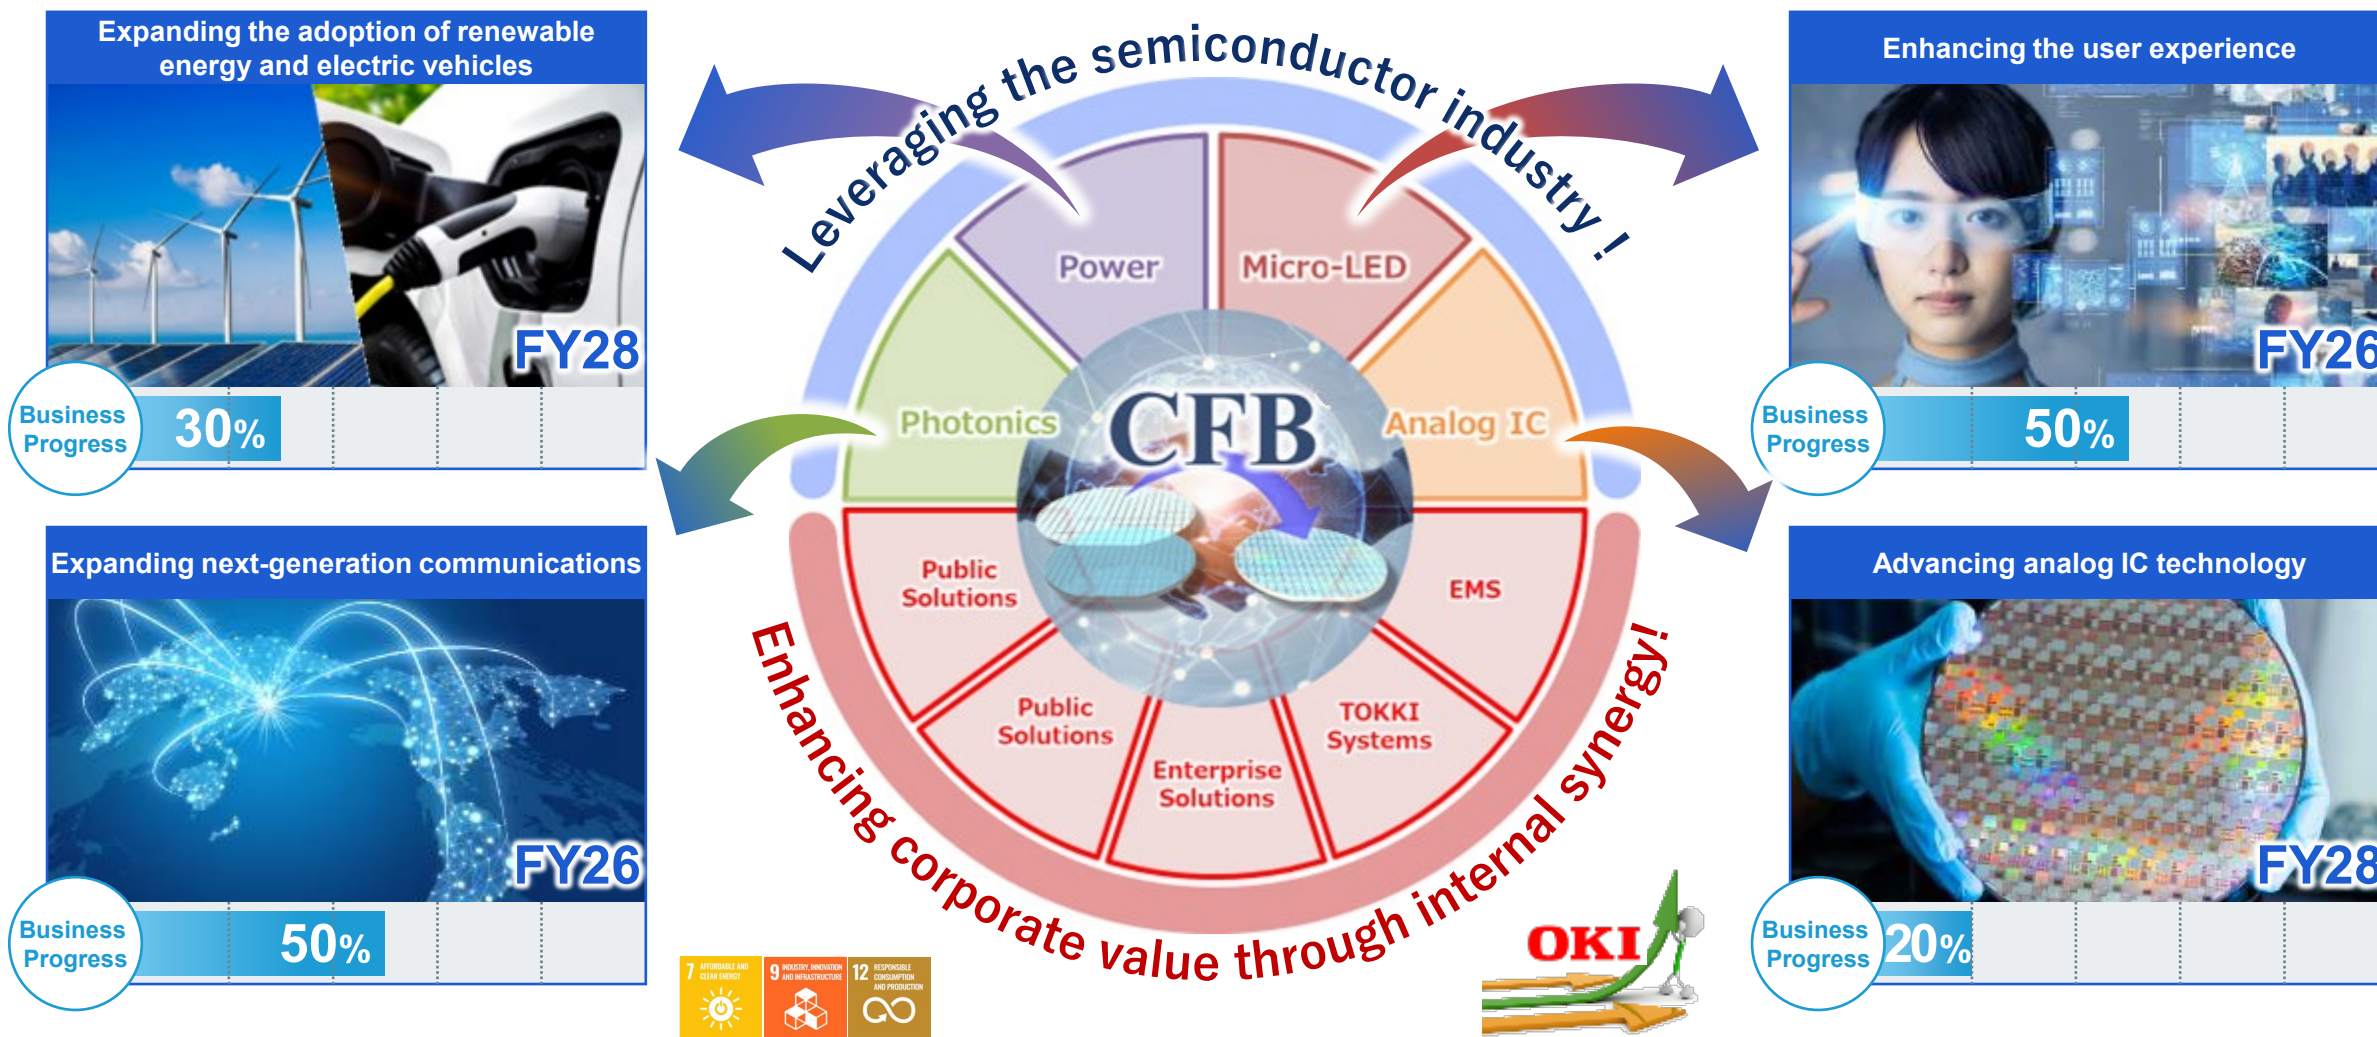

Analog IC

Leveraging our track record to drive the “More than Moore” movement!

03 CFB Business Expansion Strategy

Promoting CFB to revitalize the semiconductor industry and enhance corporate value through internal synergy

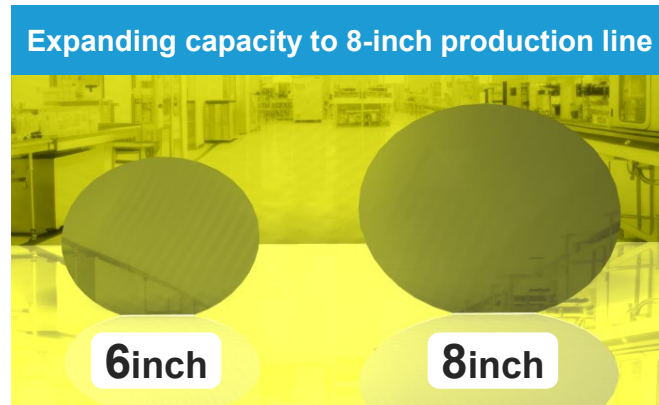

Targeting genuine social implementation of GaN power devices through ecosystem development, growth investment, and organizational reinforcement

Ecosystem development

Growth investment

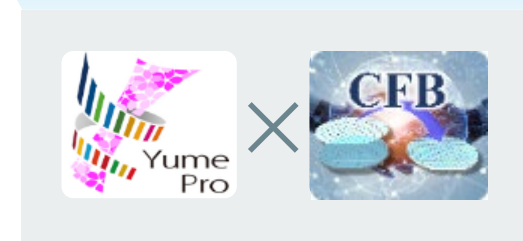

Nishi Yokote Factory (Takasaki City)

Organizational reinforcement

FY24

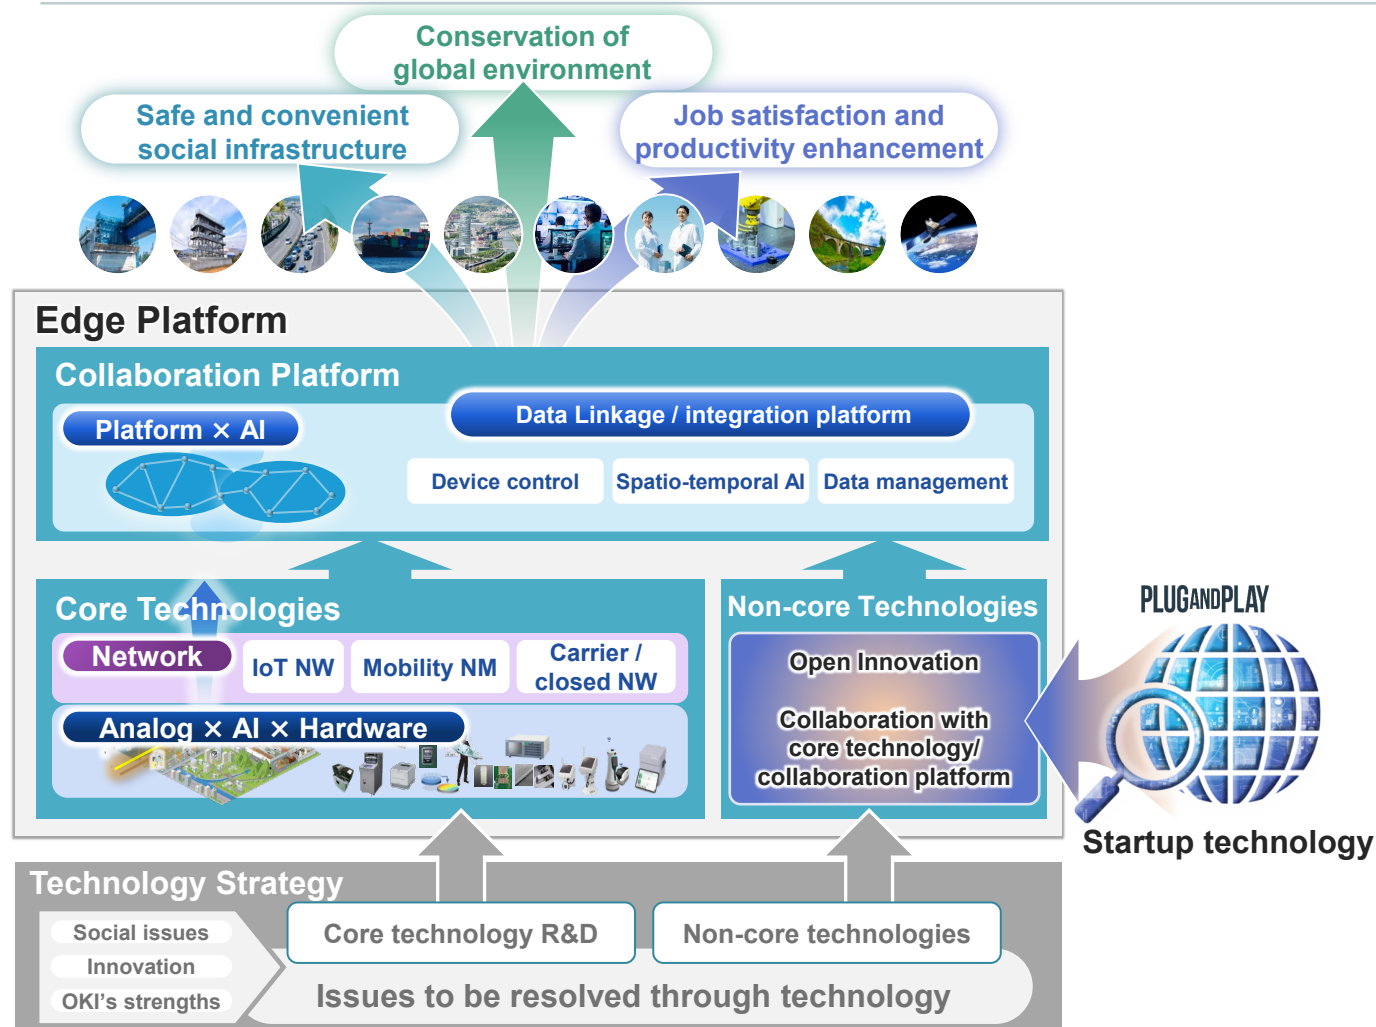

FY23

Aiming to become an agent of revolutionary change within the power semiconductor industry!

Launched open innovation efforts to draw on worldwide technological advances, strengthening our competitive edge as we prepare to restart the global business

Key activity highlights

- Explore non-core technology based on OKI technology strategies
- Open Innovation to reinforce edge platform
- Collaboration between Silicon Valley and Global Advanced Development Office

At the kickoff meeting held between OKI and Plug and Play ("PNP"; June 3 press release)
 At left: Saeed Amidi, Plug and Play Founder and CEO;
 At right: Kurato Maeno, OKI Executive Officer, Chief Technology Officer, and Head of Technology Division
