Editorial Policy

- The OKI Group "Social and Environmental Report" featuring our social and environmental efforts is published in order to inform our stakeholders of the group's CSR (corporate social responsibility) initiatives in an easy-to-understand way.
- In June 2009, the OKI Group published the Social and Environmental Report 2009. It was the group's first attempt to integrate two of its annual reports, the Environmental Report launched in 1999 and the Social Responsibility Report launched in 2005 to let our stakeholders know our CSR-related activities. In reporting what we did for the environment and society during fiscal 2010, we again take this approach while some detailed information are provided only on our website. We believe we can inform our stakeholders of our environmental and social activities in a compact and easy-to-understand way by doing so.
- This report features five articles under the title "Meeting Our CSR Commitments" that cover five key challenges for the OKI Group in which our stakeholders as well as the public show an intense interest. The report describes our seven priority themes concerning social responsibility and our efforts made in fiscal 2010 as well. It also includes the "Detailed Data" section at the end which covers performance data concerning our environmental activities. Detailed information on each priority theme, such as that on specific policies and systems for it, are provided on our website. (Please see Page 19 for the specific topics provided on the website.)
