

PrintSuperVision

The remote monitoring and configuration solution from OKI

PrintSuperVision (PSV) adds a new dimension to printer management using just a web browser from your IT managers desktop. Effortlessly locate, set up, observe and maintain your printers and MFPs – from a handful to thousands, in a single location or enterprise-wide.

Use PrintSuperVision to view the real-time status of all your printers to monitor, report on printer usage, manage consumables, replenish them and configure the software to suit your printer management requirements. It can also track printed pages and copies for bill back to individual users and departments. PSV is available in two distinct editions to better meet the needs of IT today.

Key Features

- Proactively manage and monitor networked OKI printers/MFPs and most other brand compatible devices
- Monitor print costs
- View maintenance logs
- Predict toner levels and image drum life for accurate planning
- Easy to set up and copy settings from one printer to many
- Use standard web browsers to view device status
- Create and control user access rights
- View usage reports on-screen or in XML and Excel® formats; export data in Text and CSV formats
- Schedule reports and generate automated email delivery
- Order supplies online or generate hard-copy purchase orders

PrintSuperVision

Status at a glance

PrintSuperVision allows you to view device configurations and capabilities in one comprehensive screen, which also includes easy-to-identify, colour-coded supply levels and operational status, displayed in real-time.

Maximise uptime, minimise service calls

PrintSuperVision's Supplies Usage Report predicts consumables "change by dates" to help you better plan your supplies purchases. Receive email notifications when supplies are required. Order supplies online from the website of your choice with just a few mouse clicks.

Keep your device locations visible

To make finding and identifying devices easy, PrintSuperVision allows you to import floor plans, site maps or geographic maps, and place interactive icons where your devices are actually located.

Print SuperVision Professional v Print SuperVision Enterprise

	Professional Edition	Enterprise Edition
Discovers OKI and non-OKI devices	✓	✓
Device Grouping/Floor plans /Maps	✓	✓
