Optimise your printing needs to drive productivity saving you time and money

- Remove expensive desktop printers
- Protect document confidentiality
- Cost allocation and recovery (charging per copy, print and scan)
- Minimise printed wastage. Reduce your costs and carbon footprint
- Universal Print Driver enables web printing and scan to desktop functions
- Print securely from any location and release anywhere
- Centralised administration and monitoring such as cost by user and device usage
- Manage device access through PIN, secure ID card and login authentication
- Optimise workflows by enforcing rules, links and notifications
