

# SAFETY DATA SHEET

Ink cartridge (Black)

# IP5-204

**OKI DATA INFOTECH CORPORATION** 

# Safety Data Sheet

1. IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING   1.1 Product identifier Product Name : Ink cartridge(Black)   Product Code : IP5-204		
1.2 Relevant identified uses of the substance or mixture and uses advised against		
	nkjet Ink	
1.3 Details of the supplier of the safe	-	
	0KI Data Infotech Corporation	
	63, Takatsuka-Shinden, Matsudo-shi, Chiba, 270-2222,Japan el:+81-47-391-2349	
	DKI Europe Ltd. Wide Format Division	
	iemensstrase 9, D-63263 Neu-Isenburg	
	Germany	
	49 (0) 6102 297 400	
2. HAZARDS IDENTIFICATION		
2.1 Classification of the substance of	r mixture	
<regulation (ec)="" 1272<="" no.="" td=""><td></td></regulation>		
Classification		
Skin irritation, Category 2	H315: Causes skin irritation.	
Reproductive toxicity,	H360Df: May damage the unborn child. Suspected of	
Category 1B	damaging fertility.	
<1999/45/EC >		
Toxic to Reproduction Category	-	
Toxic to Reproduction Category		
Irritant 2.2 Label elements	R38: Irritating to skin.	
	/2008~	
<regulation (ec)="" 1272="" 2008="" no.=""> Hazard pictograms</regulation>		
Signal word:	Danger	
Hazard statements	H315 Causes skin irritation.	
	H360Df May damage the unborn child. Suspected of damaging fertility.	
Precautionary statements		
Prevention:	P201 Obtain special instructions before use.	
	P202 Do not handle until all safety precautions have been read and understood.	
	P280 Wear protective gloves/ protective clothing/ eye protection/ face protection.	
Response:	P308 + P313 IF exposed or concerned: Get medical ad-vice/ attention.	
	P332 + P313 If skin irritation occurs: Get medical advice/ attention.	

Hazardous components which must be listed on the label:

bis(2-(2-methoxyethoxy)ethyl) ether

## 2.3 Other hazards

Vapours may form explosive mixture with air.

### 3. COMPOSITION / INFORMATION ON INGREDIENTS

Main Ingredients	Content (%)	CAS-No.	EC-No.	Classification (67/548/EEC )	Classification (REGULATION (EC) No 1272/2008)
bis(2-ethoxyethyl)ether	70-80	112-36-7	203-963-7	Xi; R38	Skin Irrit. 2; H315
bis(2-(2-methoxyethoxy)ethyl) ether	5-15	143-24-8	205-594-7	Repr.Cat.2; R61 Repr.Cat.3; R62	Repr. 1B; H360Df
Carbon black	1-10	1333-86-4	215-609-9	None	None

Other components (listed on EINECS, NLP or ELINCS) are not hazardous according to the directives mentioned above.

# 4. FIRST-AID MEASURES

4.1 Description of first aid measures

		-
	General advice:	In the case of accident or if you feel unwell, seek medical ad-vice immediately.
		When symptoms persist or in all cases of doubt seek medical advice.
	Protection of first-aiders:	First Aid responders should pay attention to self-protection, and use the recommended personal protective equipment when the potential for exposure exists.
	If inhaled:	If inhaled, remove to fresh air. Get medical attention if symptoms occur.
	In case of skin contact:	In case of contact, immediately flush skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur. Wash clothing before reuse. Thoroughly clean shoes before reuse.
	In case of eye contact:	In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. If easy to do, remove contact lens, if worn. Get medical attention immediately
	If swallowed:	If swallowed, DO NOT induce vomiting unless directed to do so by medical personnel. Get medical attention. Rinse mouth thoroughly with water. Never give anything by mouth to an unconscious person.
4.2 N	Nost important symptoms and	effects, both acute and delayed
	Risks:	Causes skin irritation. May damage the unborn child. Suspected of damaging fertili-ty.
4.3 lı	ndication of any immediate me	edical attention and special treatment needed
	Treatment:	Treat symptomatically and supportively

5. FIRE-FIGHTING MEASURES

5.1 Extinguishing media

Suitable extinguishing media:	Water spray Alcohol-resistant foam Dry chemical Carbon dioxide (CO2)
Unsuitable Extinguishing Me	edia
	High volume water jet
5.2 Special hazards arising from t	he substance or mixture
Specific hazards during fire-fighting:	Do not use a solid water stream as it may scatter and spread fire. Flash back possible over considerable distance. Vapours may form explosive mixtures with air. Exposure to combustion products may be a hazard to health.
Hazardous combustion products:	Carbon oxides
5.3 Advice for firefighters	
Special protective equipmen for fire-fighters:	t In the event of fire, wear self-contained breathing apparatus. Use personal protective equipment.
Specific extinguishing methods:	Use extinguishing measures that are appropriate to local circumstances and the surrounding environment. Cool containers/tanks with water spray. Remove undamaged containers from fire area if it is safe to do so. Evacuate area.
6. ACCIDENTAL RELEASE ME	
6.1 Personal precautions, protecti	ive equipment and emergency procedures
Personal precautions:	Remove all sources of ignition. Use personal protective equipment. Follow safe handling advice and personal protective equipment recommendations.
6.2 Environmental precautions	
Environmental precautions:	Discharge into the environment must be avoided. Prevent further leakage or spillage if safe to do so. Prevent spreading over a wide area (e.g. by containment or oil barriers). Retain and dispose of contaminated wash water. Local authorities should be advised if significant spillages cannot be contained.
6.3 Methods and material for cont	ainment and cleaning up
Methods for cleaning up:	Non-sparking tools should be used. Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust). Suppress (knock down) gases/vapours/mists with a water spray jet. For large spills, provide dyking or other appropriate containment to keep material from spreading. If dyked material can be pumped, store recovered material in

appropriate container.

Clean up remaining materials from spill with suitable

disposal of this material, as well as those materials and items employed in the cleanup of releases. You will need to determine which regulations are applicable. Sections 13 and 15 of this SDS provide information

regarding certain local or national requirements.

6.4 Reference to other sections

See sections: 7, 8, 11, 12 and 13.

# 7. HANDLING AND STORAGE

7.1 Precautions for safe handling	
Technical measures:	See Engineering measures under EXPOSURE CONTROLS/PERSONAL PROTECTION section.
Local/Total ventilation:	Use with local exhaust ventilation. Use only in an area equipped with explosion proof exhaust ventilation.
Advice on safe handling:	Do not get on skin or clothing. Avoid inhalation of vapour or mist. Do not swallow. Do not get in eyes. Handle in accordance with good industrial hygiene and safety practice. Keep container tightly closed. Keep away from heat and sources of ignition. Take precautionary measures against static discharges. Take care to prevent spills, waste and minimize release to the environment.
Hygiene measures:	Ensure that eye flushing systems and safety showers are located close to the working place. When using do not eat, drink or smoke. Wash contaminated clothing before reuse.
7.2 Conditions for safe storage, inc	cluding any incompatibilities
Requirements for storage areas and containers:	Keep in properly labelled containers. Keep tightly closed. Keep in a cool, well-ventilated place. Store in accordance with the particular national regulations. Keep away from heat and sources of ignition.
Advice on common storage:	Do not store with the following product types: Strong oxidizing agents Explosives Gases
7.3 Specific end use(s)	
Specific use(s):	No data available

## 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

#### 8.1 Control parameters

Occupational Exposure Limits

bis(2-ethoxyethyl)ether:

Carbon black	1333-86-4	TWA	3.5 mg/m3	GB EH40
		STEL	7.0 mg/m3	GB EH40

Derived No Effect Level (DNEL) according to Regulation (EC) No. 1907/2006:

End Use: Workers Exposure routes: Inhalation Potential health effects: Long-term systemic effects Value: 50.5 mg/m3 End Use: Workers Exposure routes: Skin contact Potential health effects: Long-term systemic effects Value: 3.43 mg/kg bw/day End Use: Consumers Exposure routes: Inhalation

	Potential health effects: Long-term systemic effects Value: 5.96 mg/m3 End Use: Consumers Exposure routes: Skin contact Potential health effects: Long-term systemic effects Value: 1.71 mg/kg bw/day End Use: Consumers Exposure routes: Ingestion Potential health effects: Long-term systemic effects Value: 300 mg/kg bw/day
bis(2-(2-methoxyethoxy)ethyl) ether:	End Use: Workers Exposure routes: Inhalation Potential health effects: Long-term systemic effects Value: 22 mg/m3 End Use: Workers Exposure routes: Skin contact Potential health effects: Long-term systemic effects Value: 3 mg/kg bw/day End Use: Consumers Exposure routes: Inhalation Potential health effects: Long-term systemic effects Value: 0.5 mg/m3 End Use: Consumers Exposure routes: Skin contact Potential health effects: Long-term systemic effects Value: 0.001 mg/kg bw/day End Use: Consumers Exposure routes: Ingestion Potential health effects: Long-term systemic effects Value: 0.001 mg/kg bw/day
Predicted No Effect Concentration (PNEC) a	according to Regulation (EC) No. 1907/2006:
bis(2-(2-methoxyethoxy)ethyl) ether:	Fresh water Value: 32 mg/l Marine water Value: 3.2 mg/l Intermittent use/release Value: 50 mg/l Sewage treatment plant Value: 500 mg/l Fresh water sediment Value: 127 mg/kg Marine sediment Value: 12.7 mg/kg Soil Value: 6.7 mg/kg Oral Value: 8.32 mg/kg
8.2 Exposure controls	
Engineering measures:	Minimize workplace exposure concentrations. Use only in an area equipped with explosion proof exhaust ventilation. Use with local exhaust ventilation.
Personal protective equipment	
Eye protection:	Wear the following personal protective equipment: Safety glasses
Hand protection	
Material:	Impervious gloves

	Flame retardant gloves
Remarks:	Choose gloves to protect hands against chemicals depending on the concentration and quantity of the hazardous substance and specific to place of work. Breakthrough time is not determined for the product. Change gloves often! For special applications, we recommend clarifying the resistance to chemicals of the aforementioned protective gloves with the glove manufacturer. Wash hands before breaks and at the end of workday.
Skin and body protection:	Select appropriate protective clothing based on chemical resistance data and an assessment of the local exposure potential. Wear the following personal protective equipment: Flame retardant antistatic protective clothing. Skin contact must be avoided by using impervious protective clothing (gloves, aprons, boots, etc).
Respiratory protection	Use respiratory protection unless adequate local exhaust ventilation is provided or exposure assessment demonstrates that exposures are within recommended exposure guidelines.
Filter type:	Organic vapour type (A)

# 9. PHYSICAL AND CHEMICAL PROPERTIES

9.1 Information on basic physical and chemical properties

· · · · · · · · · · · · · · · · · · ·	
Appearance:	liquid
Color:	black
Odor	solvent-like
Odor Threshold:	No data available
pH:	No data available
Melting point/freezing point:	No data available
Initial boiling point and boiling range:	No data available
Flash point:	71 °C
	Method: Cleveland open cup
Evaporation rate:	No data available
Flammability (solid, gas)	Not applicable
Upper explosion limit:	No data available
Lower explosion limit:	No data available
Vapour pressure:	No data available
Relative vapour density:	No data available
Density:	0.9-1.1g/cm3 (25°C )
Water solubility:	soluble
Solubility in other solvents	soluble Solvent: organic solvents
Partition coefficient: n-octanol/water:	Not applicable
Auto-ignition temperature:	No data available
Thermal decomposition:	No data available
Viscosity, dynamic:	5 - 15 mPa.s (25 °C)
Explosive properties:	Not explosive
Oxidizing properties:	The substance or mixture is not classified as oxidizing.

9.2 Other information

	No data available
10. STABILITY AND REACTIVI	TY
10.1 Reactivity	
Not classified as a reactivity	hazard.
10.2 Chemical stability	
Stable under normal condition	ons.
10.3 Possibility of hazardous reac	tions
Hazardous reactions:	Combustible liquid. Vapours may form explosive mixture with air. Can react with strong oxidizing agents.
10.4 Conditions to avoid	
Conditions to avoid:	Heat, flames and sparks.
10.5 Incompatible materials	
Materials to avoid:	Oxidizing agents
10.6 Hazardous decomposition pr	oducts
No hazardous decomposition	n products are known.
11. TOXICOLOGICAL INFORM	
11.1 Information on toxicological e	effects
Information on likely routes of exposure:	Inhalation Skin contact Ingestion Eye contact
Acute toxicity:	Not classified based on available information.
<bis(2-ethoxyethyl) ether=""></bis(2-ethoxyethyl)>	
Acute oral toxicity:	LD50 (Rat): 4,970 mg/kg

13. DISPOSAL CONSIDERATI 13.1 Waste treatment methods	ONS		
Product:	Dispose of in accordance with local regulations. According to the European Waste Catalogue, Waste Codes are not product specific, but application specific. Waste codes should be assigned by the user, preferably in discussion with the waste disposal authorities.		
Contaminated packaging:	Dispose of as unused product. Empty containers should be taken to an approved waste handling site for recycling or disposal. Do not burn, or use a cutting torch on, the empty drum.		

- 14.1 UN number
  - Not regulated as a dangerous good
- 14.2 UN proper shipping name

Not regulated as a dangerous good

14.3 Transport hazard class(es)

Not regulated as a dangerous good

14.4 Packing group

Not regulated as a dangerous good

14.5 Environmental hazards

Not regulated as a dangerous good

14.6 Special precautions for user

Not applicable

14.7 Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code Not applicable for product as supplied.

#### **15. REGULATORY INFORMATION**

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture Regulation (EC) No 649/2012 of the European Parliament and the Council concerning the export and import of dangerous chemicals: Not applicable REACH - Candidate List of Substances of Very High Concern for Authorisation (Article 59).: Not applicable Regulation (EC) No 1005/2009 on substances that deplete the ozone laver: Not applicable Regulation (EC) No 850/2004 on persistent organic pollutants: Not applicable Seveso II - Directive 2003/105/EC amending Council Directive 96/82/EC on the control of major-accident hazards involving dangerous substances: Not applicable Take note of Dir 94/33/EC on the protection of young people at work. Other regulations: Take note of Dir 92/85/EEC on the safety and health at work of pregnant workers. 15.2 Chemical Safety Assessment

A Chemical Safety Assessment has not been carried out.

#### **16. OTHER INFORMATION**

Full text of R-Phrases

R38:Irritating to skin.

R61:May cause harm to the unborn child.

R62:Possible risk of impaired fertility.

Full text of H-Statements

H315:Causes skin irritation.

H360Df:May damage the unborn child. Suspected of damaging fertili-ty.

Full text of other abbreviations

Repr.: Reproductive toxicity

Skin Irrit.: Skin irritation

Further information

Sources of key data used to compile the Safety Data Sheet:

Internal technical data, data from raw material SDSs, OECD eChem Portal search results and European Chemicals Agency, http://echa.europa.eu/

The information provided in this Safety Data Sheet is correct to the best of our knowledge,

information and belief at the date of its publication. The information is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and shall not be considered a warranty or quality specification of any type. The information provided relates only to the specific material identified at the top of this SDS and may not be valid when the SDS material is used in combination with any other materials or in any process, unless specified in the text. Material users should review the information and recommendations in the specific context of their intended manner of handling, use, processing and storage, including an assessment of the appropriateness of the SDS material in the user's end product, if applicable.
