

OKI ColorPainter M-64s

**Outstanding Enhanced CMYK Eco-Solvent/Latex
54"/64" Printer**

The OKI ColorPainter M-64s has won a BLI 2018 Wide Format Pick award for Outstanding Enhanced CMYK Eco-Solvent/Latex 54"/64" Printer for its...

- Exceptional, unmatched 5-star print speed
- Remarkable dimensional stability that yields accurate multi-panel displays
- Comprehensive Onyx RIP Center software and CP_Manager utility that offer outstanding usability
- Above average PANTONE color production to ensure precise color matching

“The OKI ColorPainter M-64s was by far the fastest performer in BLI’s recent field test,” said Joe Tischner, Wide Format & Cut Sheet Production Analyst for Keypoint Intelligence - Buyers Lab. “In fact, the unit’s most productive print quality setting, draft, produced above average sharpness, high contrast, and very good details on the majority of our IQ targets. For the gain in print speed the M-64s offers over the competition, shops surely won’t experience a loss in quality. And adding to the system’s overall productivity and stellar usability, the ColorPainter M-64s features larger than average 1,500-ml. ink cartridges that conveniently can be replaced on-the-fly, a rare capability among devices in this class. The unit also includes a standard media jack for easier roll loading, as well as a take-up reel system that, combined with the high-capacity cartridges, will contribute to more uptime than most of the competition.”

Keypoint Intelligence - Buyers Lab European Laboratory Manager Martin Soane added, “OKI bundles the Onyx RIP Center and CP_Manager utility, giving operators the means to accomplish so much, so easily. The Onyx RIP software enables clear-cut job modifications like adding cut and grommet marks, as well as setting up large jobs to be tiled. The CP_Manager is the most comprehensive utility BLI has evaluated thus far and adds a lot of value to the system. Not only does the utility enable printer monitoring, but operators can conduct essential maintenance procedures remotely, initiate the replacement of various consumables, and even set up audible, email, and tweet alerts.”

About **Keypoint Intelligence - Buyers Lab**

Keypoint Intelligence is a one-stop shop for the digital imaging industry. With our unparalleled tools and unmatched depth of knowledge, we cut through the noise of data to offer clients the unbiased insights and responsive tools they need in those mission-critical moments that define their products and empower their sales.

For over 50 years, Buyers Lab has been the global document imaging industry's resource for unbiased and reliable information, test data, and competitive selling tools. What started out as a consumer-based publication about office equipment has become an all-encompassing industry resource. Buyers Lab evolves in tandem with the ever-changing landscape of document imaging solutions, constantly updating our methods, expanding our offerings, and tracking cutting-edge developments.

About **Buyers Lab Wide Format Pick Awards**

Based on rigorous testing in the lab or in the field, as well as comprehensive analysis in categories such as image quality, usability, and speed, Buyers Lab Wide Format Picks stand alone in the industry and are hard-earned awards.
